About me

Back in Brazil, I developed a restaurant website and also a catering company website to update menus and last events

At the end of 2022, I decided to dive 100% into my tech career and started a full-time Bootcamp Full-Stack Web Development course

Never stop learning, right? Yes! Always looking forward to the next challenge and delivering results that exceed our clients' expectations.

First time	First course	Bootcamp	First job	Next…

In 2020, I started my studies and my first course it was a JavaScript course.

Yes, I did it! During the course, I got a job offer for a web developer position to work with ReactJS and AWS.

What I did:

< Created a user-friendly and visually appealing website for a construction company;

< Built, designed, and implemented an application to facilitate and manage appointments;

< Developed and executed an e-commerce application with a list of products, product detail, a user login, and a checkout cart.
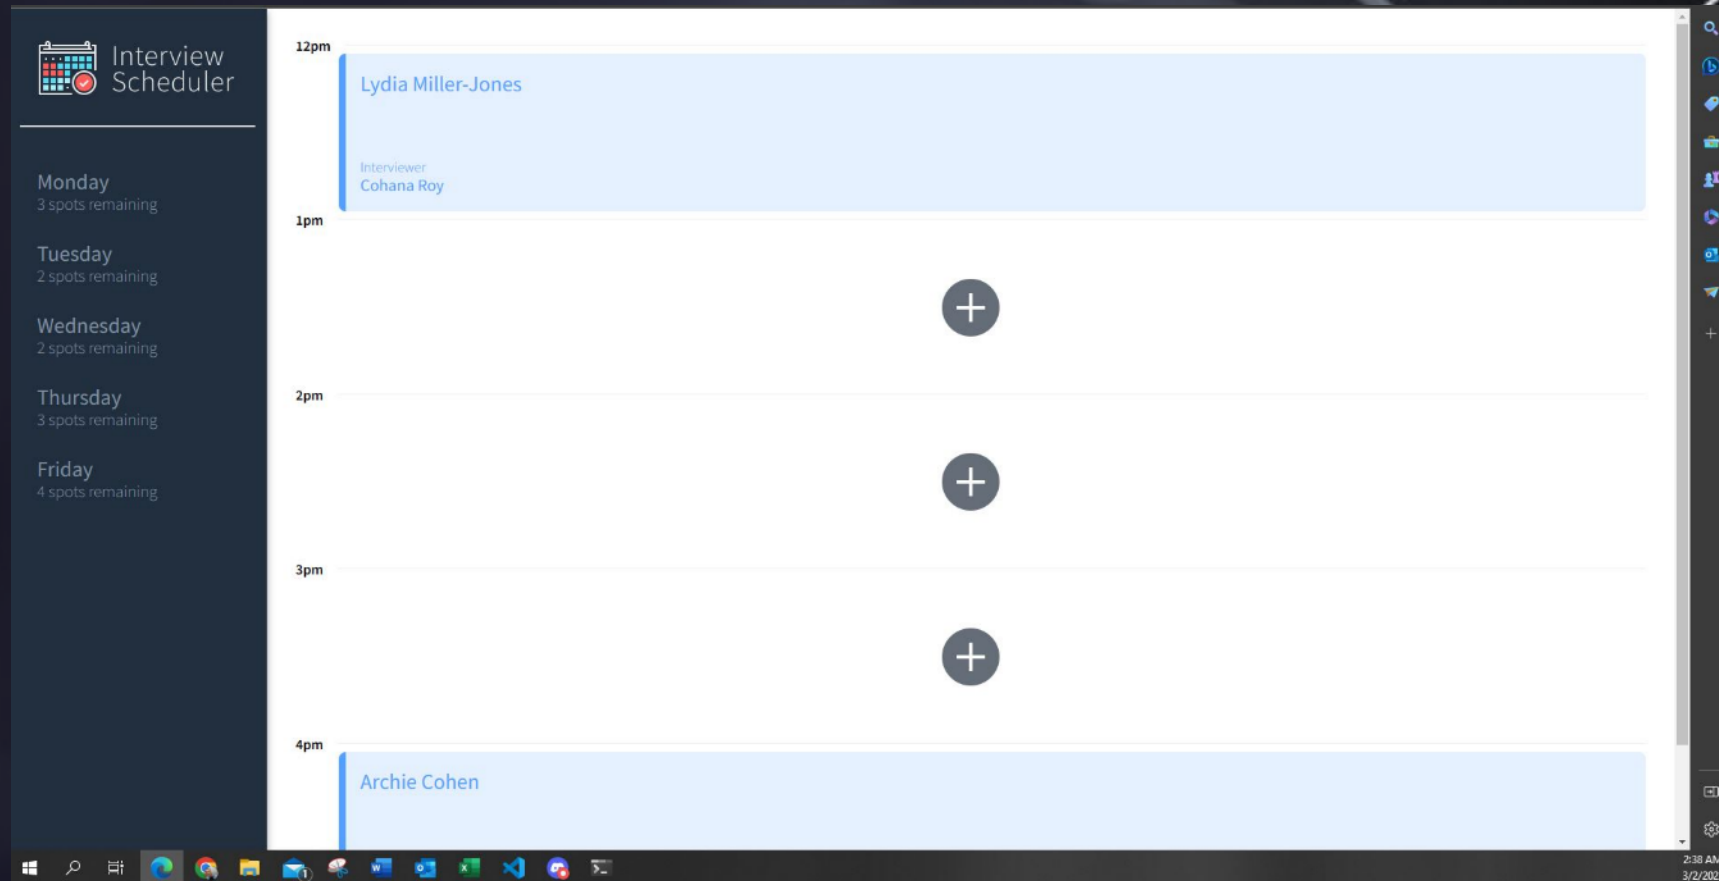

What I did:

Agenda-scheduler

Technical environment:

ReactJS, PostgreSQL, Storybook, Jest, Cypress, and WebSocket API

What I did:

Agenda-scheduler

Technical environment:

ReactJS, PostgreSQL, Storybook, Jest, Cypress, and WebSocket API

What I did:

E-commerce website

Technical environment:

ReactJS, NodeJS, Express, Auth0, and Bootstrap

What I did:

E-commerce website

Technical environment:
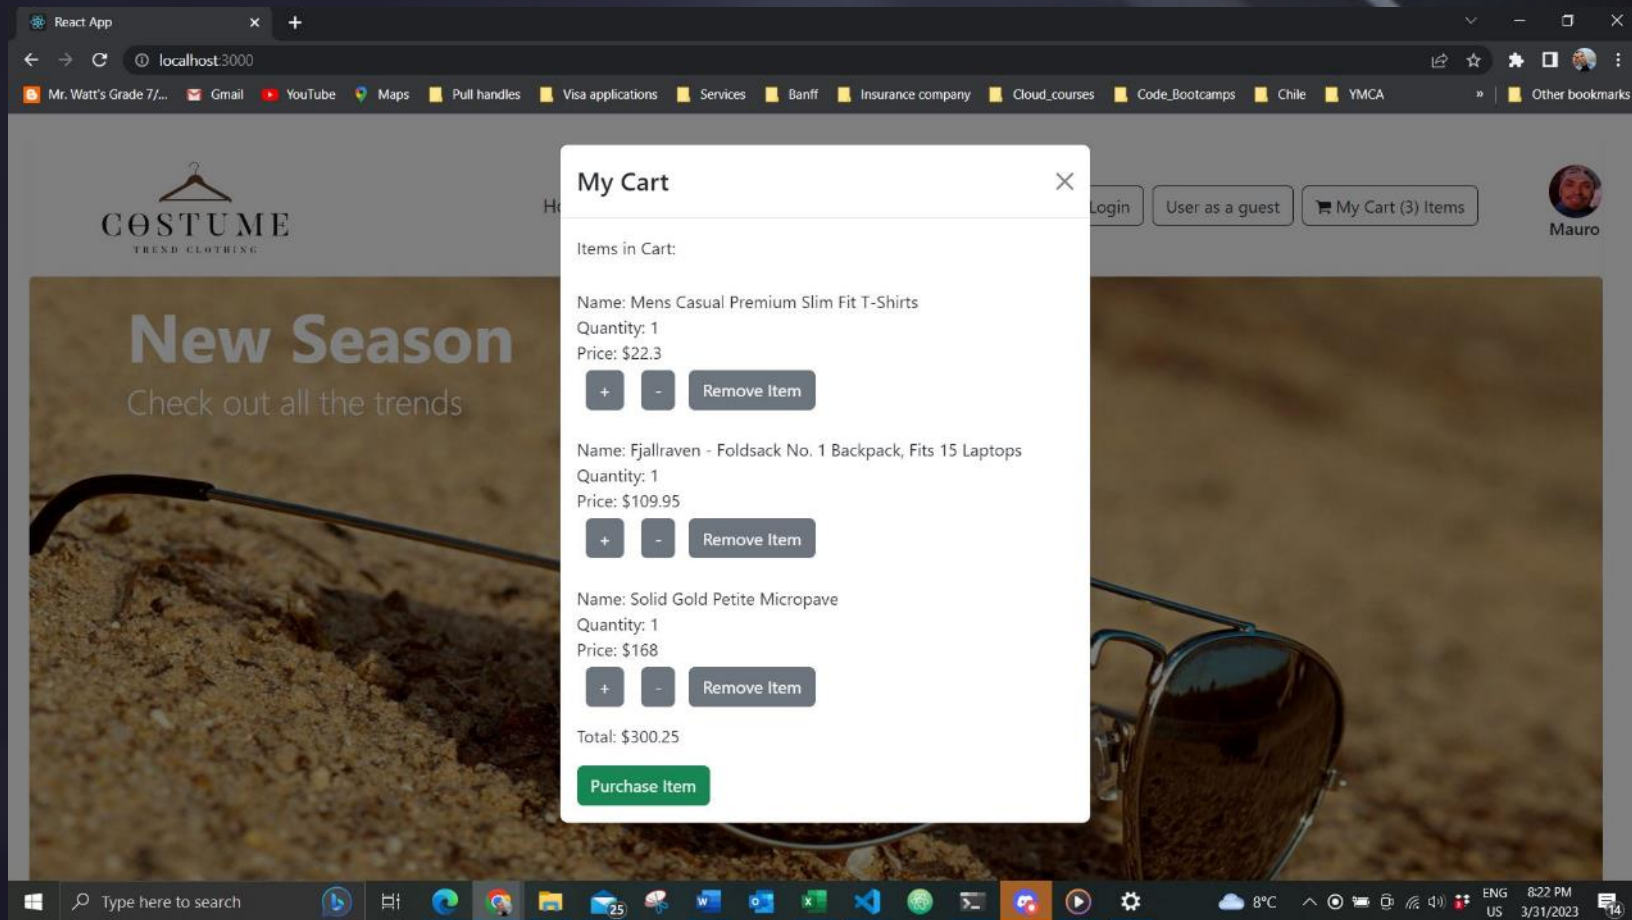

ReactJS, NodeJS, Express, Auth0, and Bootstrap

What I did:

E-commerce website

Technical environment:

ReactJS, NodeJS, Express, Auth0, and Bootstrap

What I do:

Promotional Banner

Technical environment:

Contentful, ReactJS, NodeJS, and Ajax

What I do:

Project in progress:

Technical environment:

ReactJS, React-DOM, React-quill, NodeJS, SQlite3, Express, Bootstrap and Jest

What I'm going to do:

< AWS Certification (DevOps)

< Another project using Contentful, GraphiQL, Gatsby, and Terraform

< Taking Terraform Certification

Thank You
